Web Developer

Version 1.1

Introduction

The FIJIBATI.COM website will provide complete attention of FNRL administrations, tournament matches, teams and players and news.

It offers live scores, match highlights, player profiles, team standings, and statistics. NRL.COM also features articles, interviews and analysis from experts and commentators. Fans can access a wide range of multimedia content, including videos, photos and podcasts. The website serves as a central hub for rugby league enthusiasts to stay updated with the latest news, results and developments in the FNRL.

The FIJIBATI.COM need a few dedicated users to operate the features to make things work, therefore human interaction is highly demanded in here. You can see the vast data types and its value across the FNRL; therefore, we will need to Add Users and also create Groups to use and run FIJIBATI.COM. We will need an Authentication System to handle Users and Groups online.

We are using the django-allauth authentication system.

The Django-AllAuth version 0.54(latest stable)

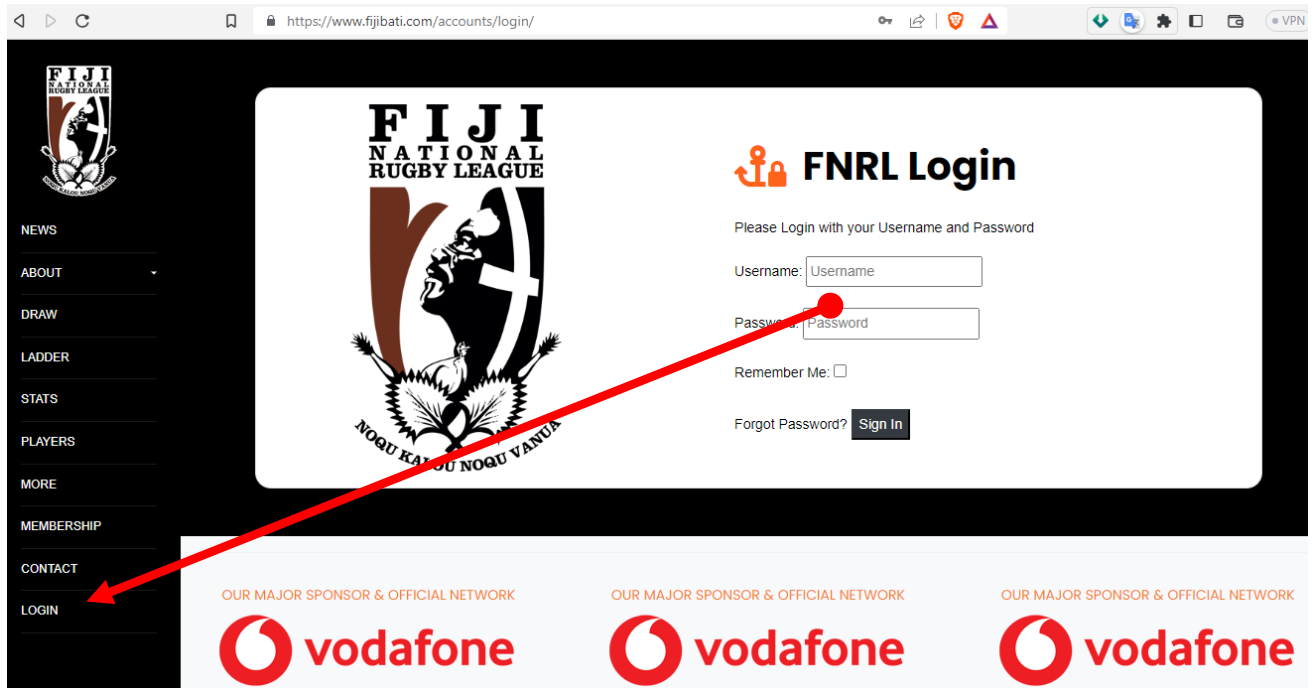

Home page > <https://www.intenct.nl/projects/django-allauth/>

This is installed and configured into the FIJIBATI.COM to handle authentication of Users and will be used to access other application systems features. At the moment it can be used by System Admins and News App Admins and Editors. It is where you can login and logout of the FIJIBATI.COM.

How do I log in?

On the sidebar menu, at the bottom you will find the LOGIN menu.

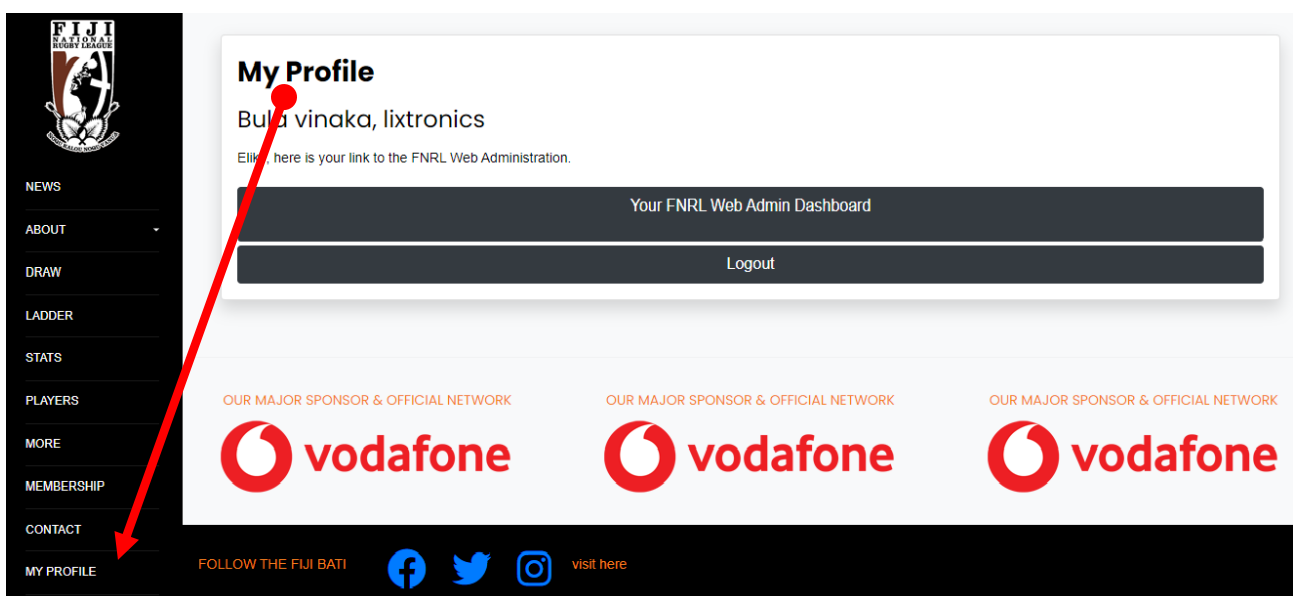

Step 1:

Click on login and enter your credentials. Username and Password are case sensitive please enter correctly.

Step 2:

As soon as you login successfully, you will be redirected to a welcome profile page.

Please take note of the new menu that appears as you login, MY PROFILE and LOGOUT. The My Profile page has a link to your FNRL Web Admin.

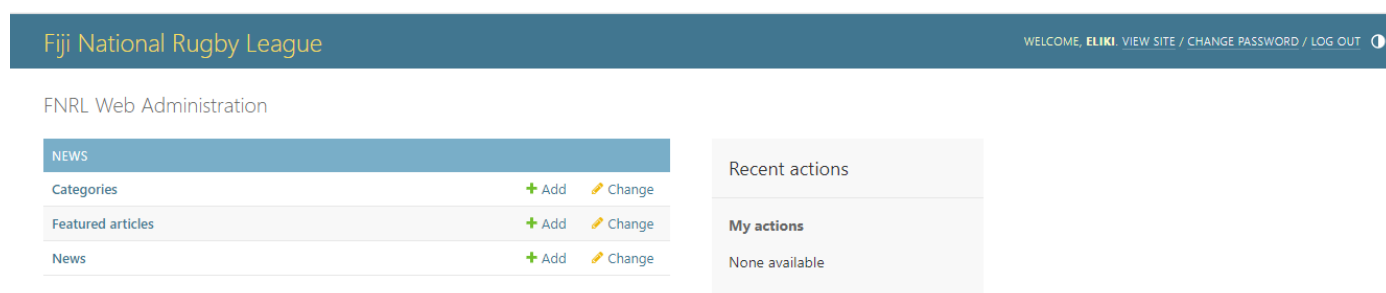

To Logout

Click on logout and you will be redirected to home page of the website. There will be a confirmation Sign Out page to log you out of the FIJIBATI.COM

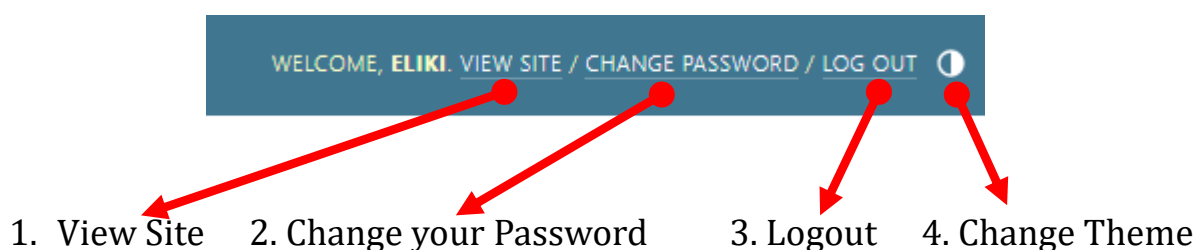

The FNRL Web Admin Dashboard

In your profile page after you login you are given the option to go to “Your FNRL Web Admin Dashboard”. If you click on the button, you will be directed to your FNRL Web Admin Dashboard.

In here you can;

This is on the right top corner of your Dashboard.

The FNRL Web Admin Dashboard is your place to work on the website. The current login above shows the News App Admin Dashboard, which shows the User has the right to Add, Change or Delete News and Categories. To use the News App Admin, you will have to refer to the News App Manual.

End.
